

Greensboro North Carolina Branch

Registration for the virtual program 6 to 8 p.m. Tuesday November 9th

The POWER TO HEAL is a documentary that tells a poignant chapter in the historic struggle to secure equal and adequate access to healthcare for all Americans. Central to the story is the tale of how a new national program, Medicare, was used to mount a dramatic, coordinated effort that desegregated thousands of hospitals across the country in a matter of months.

Through the voices of the men and women who experienced disparities and fought against them, *POWER TO HEAL* will introduce a broad, missing link in the Civil Rights Movement — a struggle over healthcare from a half-century ago, that raises questions that resonate today:

Is healthcare a human right?

A panel live discuss of experts will follow the documentary screening:

Althea Taylor Jones,
